VISION FOR LEARNING

Our vision for learning focuses on the following principles:

*St Joseph’s School is first and foremost a Catholic School.*

Key Elements:

**Community**

Learning occurs when the whole community are involved in the process and the school and community support each other.

**Environment**

The environment that the students learn in should set the standard for the work that they produce.

**Social Constructivism**

Students learn better when they learn together and each is responsible for the learning.

**Metacognition**

It is important that we don’t focus on just learning content but that we focus on learning how to learn.
