

The students in Years 1-6 have had an exciting week at Woodman Point Recreation Camp. We got up to so many fun activities including a day at Scitech, Latitude, Fremantle and the Glowing Rooms. Our day at Scitech was filled with lots of exploring and time in the Planetarium, where we learned all about the Moon through the eyes of a virtual reality games designer. The last day of camp we spent the morning at Latitude which included lots of rock climbing, bouncing on trampolines and doing the Sky-Walk. The afternoon was spent in Fremantle where we had a delicious lunch at Cicerello's, then had a play at Esplanade Park. After that we played a game of mini golf at the Glowing Rooms which was lots of fun! One of the most exciting parts of this camp was the students performing their dance at the Perth Convention Centre for the Catholic Performing Arts Festival. All of the students looked incredible and they all did such an amazing job dancing their hearts out!!
