

# Once Upon a Time in Year One and Two

This Term in the Year One and Two class, we are learning about fairy tales. In our classroom, there is a strong focus on play based learning as it has a range of benefits on a child's learning and development. This term we are lucky enough to have a castle in our classroom which the students have loved playing with and harnessing their imagination. Students have enjoyed dressing up in, and taking on the role of, different characters and then writing a story, drawing on their experiences.

We have loved exploring and investigating with Lego and seeing the different things we can create. Students have been busy creating their own characters and settings for our Lego stories. We have had an absolute blast in Year One and Two so far.

Miss Reeve and Mrs Pedrin
